

QuickStart Guide for Using the Carey Temperament Scales Software V4.2 on PC Systems

Version 4.2 of the Carey Temperament Scales is fully PC compatible and 'network aware.'

These instructions will access the title screen of the CTS software. The title screen and each screen that follows contains instructions on how to proceed to enter data and print the report.

Note the following file names: Report Writer is **report.exe**; Profile Writer is **profile.exe**; Quickscore is **qscore.exe**;

DOS SYSTEMS

1. At the C prompt, **Insert the diskette** in the A drive.*
2. Type **A:** and press **Return**.
3. When the A prompt (A:\>) appears, type the file name-**report.exe**, **profile.exe** or **qscore.exe**, and press **Return**.

WINDOWS SYSTEMS

1. From the *Program Manager* screen, **double click** on the *Main* icon.
2. **Insert the diskette** into the floppy drive.
3. **Double click** on *File Manager* and **click** on the *a: drive* icon*
4. **Double click** on the **report.exe**, **profile.exe** or **qscore.exe** file to open it.

WINDOWS 95 and 98 SYSTEMS

1. **Double-click** on *My Computer*
2. **Insert the diskette** into the floppy drive.
3. **Double-click** on the *3 1/2" floppy* icon. Scroll to find the .exe file.
4. **Double click** on **report.exe**, **profile.exe** or **qscore.exe** file to open.

***NOTE: "A" drive is the floppy disk drive on most systems. If your floppy drive is "B" drive (or some other configuration) use the name that represents the floppy disk drive on your system.**
